LeasePlan Australia HQ is Moving

LeasePlan Australia is moving its Melbourne-based national head office from St Kilda Rd to brand new premises at South Wharf in May 2010.

With the St Kilda Rd lease coming to an end, LeasePlan was on the lookout for a potentially smarter solution that met budget parameters as well as the organisation's growth needs for the next decade.

With 2000 sq metres per floor, a high environmental rating and close proximity to the CBD and all forms of public transport, South Wharf fits the bill for LeasePlan.

The new headquarters will occupy levels 7 and 8 of the South Wharf Commercial Tower at 30 Convention Centre Place.

The design process is well underway for the brand new Melbourne home, and this will complement work done upgrading LeasePlan's other offices around Australia through 2009.

With a brand new, industry leading computer system, as well as a greatly enhanced office environment for its head office employees, LeasePlan Australia is looking forward to an exciting 2010.
