

Trucks at LeasePlan

LeasePlan's **EasySafe** is an easy way to efficiently log vehicle inspections and register faults, onsite, in real time.

LeasePlan Australia is the first and only leasing company to be accredited under the National Heavy Vehicle Accreditation Scheme, a key feature of the **EasySafe** service. Customers of LeasePlan who utilise **EasySafe** in conjunction with our maintenance management product will be automatically accredited under the National Heavy Vehicle Accreditation Scheme.

A regular safety check of your heavy vehicles is an integral part of your fleet operations.

EasySafe is a powerful web-based solution that provides truck operators with an easy method to manage their OH&S obligations and Heavy Vehicle Accreditation compliance.

The internet functionality of LeasePlan **EasySafe** allows the system to be utilised from anywhere your trucks operate, via any handheld device with GPRS, NextG or 3G on a mobile network.

EasySafe can help your organisation improve its fleet performance as maintenance standards are elevated and the likelihood of unforeseen repairs/expenses is considerably reduced.

Enjoy the benefits of reduced fleet downtime, improving the ability for fleet managers/coordinators to improve their service delivery and return on investment. You can also better manage your OH&S obligations.

EasySafe improves customer satisfaction and reduces costs of compliance with State and Territory road regulations.

Customers in NSW and QLD can also experience reduced expenses where Nominated Fleet are exempt from Annual Inspections and associated costs.
